The Latin text quoted on the preceding page has introduced Bowdoin's Commencement Program since August 21, 1822. The names of the twenty-four graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement "part," an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Jennifer Clarke Kosak, Associate Professor of Classics.

May it be good, felicitous, and well-omened:*

To Paul LePage, esteemed Governor;

to the Representatives and Senators

who personally preside over the arts and letters for the State of Maine;

and to the honorable and respected Trustees of Bowdoin College;

to Clayton Rose, distinguished President;

to the entire academic senate; to the venerable religious leaders;

in short, to all patrons of the human race everywhere,

the young people hereby initiated into the arts and letters

most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine,

on the fifth day before the Kalends of June, in the 2016th year of our well-being

and in the 240th year of the authority of the United States of America.

* An ancient Roman formula used at the outset of a ritual to ensure its success.

DEGREES

This ancient formula is used by the President in conferring degrees:

Candidati pro gradu baccalaureali, assurgite.

Femina honoranda, hosce iuvenes, quos censeo idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam. Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia iura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cuius testimonium hasce membranas litteris scriptas accipite.

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees)

Honored madam, these young people whom I deem worthy of the first degree in Arts, I now present to you, that, if you so direct, I may admit them to that degree. Is such your will? (It is.)

(To the Candidates)

By virtue of the authority vested in me, I now admit you to the first degree in Arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

In witness whereof, receive these diplomas.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

At the Commencement Exercises, Bowdoin displays the College flag and the flags of the United States of America, the State of Maine, and the home or dual-citizenship countries or territories of graduating students—in 2016, Australia, Brazil, Canada, Chile, People's Republic of China, Colombia, Ecuador, Estonia, France, Germany, Hong Kong SAR, India, Ireland, Italy, Japan, Kenya, Latvia, Malaysia, Mexico, Nepal, Netherlands, Panama, Peru, Portugal, Republic of Korea, Serbia, Somalia, Sweden, Switzerland, Thailand, Trinidad and Tobago, United Kingdom, Venezuela, Vietnam, Zimbabwe.

HONORANDS OF THE 2016 COMMENCEMENT

DOROTHEA ROCKBURNE, *Doctor of Fine Arts (DFA)*

Dorothea Rockburne is a painter, mixed media, and installation artist who brings to her art a deep understanding of mathematics and astronomy. Born in Montréal, Quebec, in 1932, she received classical training in art at the École des Beaux-Arts, Paris, France, and at the Montréal Museum School. At Black Mountain College in Asheville, North Carolina, she studied painting, music, dance, mathematics, theater, linguistics, philosophy, literature, writing, poetry, and photography. In 1970, Rockburne produced her “Set Theory” installations, inspired by the relationships between mathematics and the way a body moves through space. In the early 1990s, Rockburne began to study astronomy and frescoes, combining these interests to create a major fresco secco for SONY headquarters in New York City titled *Northern Sky, Southern Sky*. Her many awards and honors include a Guggenheim Fellowship, a National Endowment for the Arts award, the Witowsky Prize for Painting, and participation at the 1980 Venice Biennale. She is the recipient of Lifetime Achievement awards from the American Academy of Arts and Letters and the National Academy Museum and School of Fine Arts and is a member of the American Academy of Arts and Letters, the National Academy of Design, and the Century Association.

FRANK SHORTER, *Doctor of Humane Letters (LHD)*

Frank Shorter is an American long-distance runner whose gold-medal win in the marathon at the 1972 Summer Olympics is credited with igniting the running boom in the United States of the 1970s. Born in Munich, Germany, Shorter grew up in Middletown, New York. After graduating from the Northfield Mount Hermon School in Massachusetts, Shorter earned his BA from Yale University and his JD from the University of Florida College of Law. An extraordinary distance runner, Shorter won the US national cross-country championships four times, the 10,000-meter and marathon at the Pan American Games, and the Fukuoka marathon four times. He joined the members of the US Olympic Track and Field team at Bowdoin in July of 1972 to train at the all-weather track that had been installed at Whittier Field a year earlier. He was the US Olympic Trials Champion in the 10,000-meter run and the marathon in both 1972 and 1976, and he won gold in the marathon at the 1972 Summer Olympic Games in Munich and silver in Montreal in 1976. Through his role as the first head of the US Anti-Doping Agency, Shorter remains one of the most influential figures in running today.

PETER M. SMALL '64, P'97, P'99, *Doctor of Humane Letters (LHD)*

Peter M. Small '64 has an extraordinary record of service to Bowdoin College that spans nearly thirty years. Born in Glenridge, New Jersey, in 1942, Small served in the US Coast Guard after his graduation in 1964. He entered the field of real estate and established himself as a leader at the national real estate development firm of Spaulding & Slye Company, where he served as president, chairman, and CEO. He served on the governing boards of the College under three presidents, was elected an overseer in 1988 and a trustee in 1996, and served as chair of the Board from 2005–2010. Peter's service on trustee committees tracks important changes at Bowdoin, from the implementation of investment strategies to the construction and renovation of facilities, from the creation of a new residential life program to expansion of the student body and faculty; and from growth in annual giving programs to the completion of successful capital campaigns. Five generations of Small's family have attended Bowdoin, including a son, Benjamin, and a daughter, Elizabeth. A member of the 2014–15 Presidential Search Committee, Small established the Peter Metcalf Small Scholarship Fund at Bowdoin in 1986 and the Peter M. Small Professorship in 2007.

DARREN WALKER, *Doctor of Humane Letters (LHD)*

Darren Walker followed a remarkable career and personal journey to become president of the Ford Foundation. Born in Louisiana and raised by a single mother in Texas, he graduated from the University of Texas in 1982 with a BA in government and a BS in speech communication. He earned a JD at the University of Texas School of Law in 1986 and began working at the law firm Cleary, Gottlieb, Steen & Hamilton. In 1988, he joined Union Bank of Switzerland and spent seven years in its capital markets division. In 1995, he left the corporate world and volunteered for a year in a school in Harlem. He went on to become CEO at the Harlem-based Abyssinian Development Corporation, which created the first public school in New York City built by a community organization. From 2002–2010, he was vice president for foundation initiatives at the Rockefeller Foundation; in the wake of Hurricane Katrina, he led a recovery program for the Foundation. He joined the Ford Foundation in 2010 and was named president in 2013. He is a fellow of the Institute of Urban Design, a member of the Council on Foreign Relations, and serves on many boards, including the Arcus Foundation, Rockefeller Philanthropy Advisors, and the New York City Ballet.

HONORS IN MAJOR SUBJECTS

The Departments of Art, Biology, Chemistry, Computer Science, Earth and Oceanographic Science, English, History, Mathematics, Music, Psychology, Romance Languages and Literatures, and Sociology and Anthropology and the Biochemistry, Environmental Studies, Gender, Sexuality, and Women's Studies, Latin American Studies, and Neuroscience Programs award only one level of departmental honors. Other departments award honors at the levels of Highest Honors, High Honors, and Honors, and the recipients are so designated. Honors project titles below have been edited to conform with Bowdoin style. Official titles of record are on file at Hawthorne-Longfellow Library.

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest—sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard—brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing

the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor's gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel, which is either black or the color of the field of study; a doctor's may be gold. The most common style of cap is the Oxford "mortar board," with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor's being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is earned: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College's lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K. C. M. Sills, Class of 1901

New Lyrics by Anthony Antolini '63

Music by C. T. Burnett

Arranged by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O'er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
